OMRON

Programmable Terminals NT11/NT21

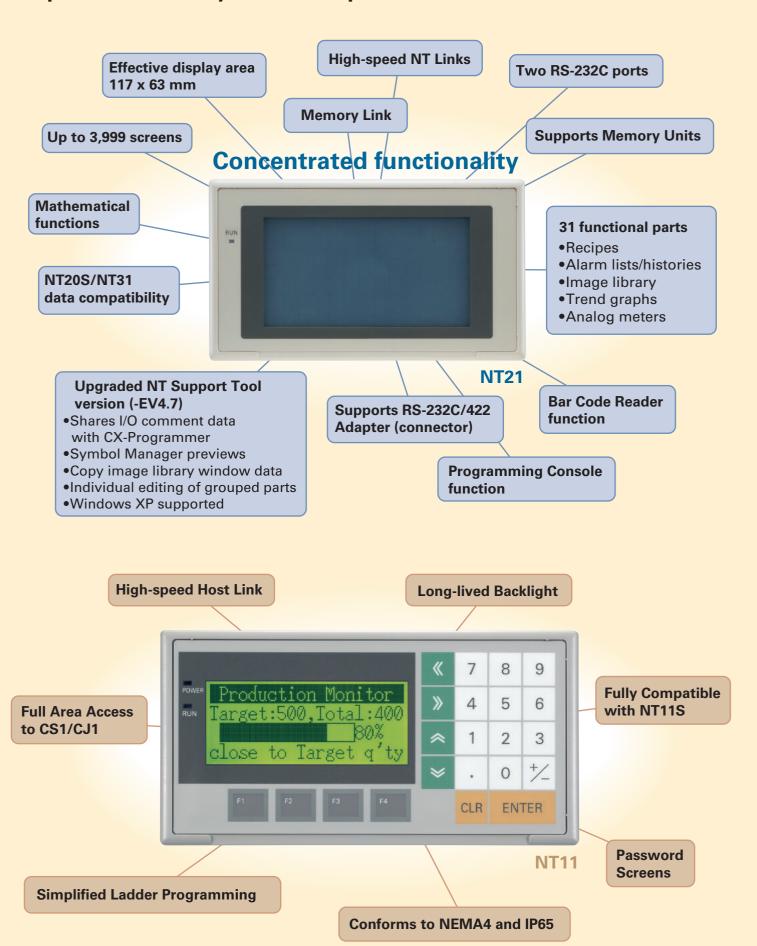

Compact Size, High Performance

Superb functionality with a compact screen size

Printout of Production Status

Data such as the production status and production results can be printed out, leaving a record on paper which can be used as a daily report.

(The NT11S has a printer port. One screen only is printed.)

Screen	Plan	Prod.
Line 1	200	200
Line 2	150	140
Line 3	350	350

Integral Numeric Key Pad

The display, numeric keys, and function keys are all integrated into the front panel, which is convenient for designers. The key layout is ergonomically designed for ease of use.

High-speed Host Link

Up to 115,200 bps supported between CS1/CJ1 PLCs.

Key Titles can be Marked on the Function Key Sheet

Key titles can be marked on the function key sheet in accordance with the applications of the keys: the sheet can be taken out from the side face of the terminal.

The front panel of the terminal has a water-withstanding construction.

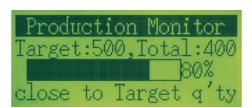

Example key titles:

F1 F2 F3 RUN AUT MAN.

Bar Graphs can be Displayed

Bar graph displays allow the progress of processes to be checked at a glance.

(The bars are oriented horizontally.)

Advantages From the Standpoint of Maintenance,

Password Screens for Security

Password screens cannot be accessed unless the correct password is entered. This means that the operations that can be performed can be restricted according to the operator.

Long-lived Backlight

Since LEDs are used for the backlight, it is very long-lived and rarely needs to be changed.

Display History Record Helps in Analysis of Machine Faults

When the display history record function is set as a screen attribute, the time, the screen number, and a comment are recorded in the terminal's memory every time the relevant screen is displayed. This display history can be printed by issuing a print instruction from the host, and is useful for machine fault analysis.

Example printout

No. Time So	creen I	No Screen Comment
1 11/01-10:00	1	LINE ERROR
2 11/07-15:33	15	MOTOR ERROR
3 11/11-13:56	19	COMPRESSER ERROR
4 11/14-09:12	5	MOTOR ERROR

Versatile I/O and Large-capacity Screen Memory in a Space-saving Size

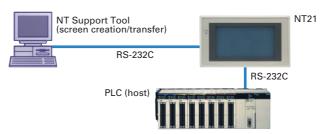

Small Size, Large Screen

The LCD screen is larger than the OMRON NT20S (increased from 256 x 128 dots to 260 x 140 dots), but the external dimensions and panel cut-out size are the same.

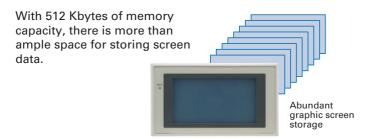

Two RS-232C Ports

Two RS-232C ports in the NT21 (compared with one in the NT20S) enable simultaneous connection of a PLC, Bar Code Reader, and NT Support Tool (connectable to serial port A only).

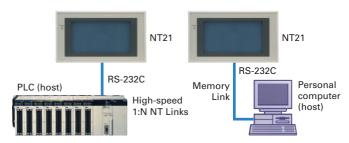

Plenty of Capacity for Saving Graphic Screens

Versatile Communications

In addition to the Host Link and 1:1 NT Link communications, the NT21 supports high-speed 1:N NT Links and Memory Link communications.

Highly Reliable Hardware

Long, Maintenance-Free Life (50,000 h)

Conforms to International Standards

The NT21 conforms to the EC Directives, as well as UL, cULus (Class 1 Div2), and C-Tick.

The front panel has an enclosure rating equivalent to IP65F.

System and screen data can be stored in NT21 Flash Memory.

Function Support Equivalent to That of a Mid-size Operator Interface

Recipe Function

Parts tables on the PT screen can be used to set multiple word data in records, which can then be written to the PLC by a

No.	Cake	Cream	Sugar	Egg	
1	Cheese	1000	300	20	
2	Almond	300	200	10	T E
3	Pound	1000	200	10	V
4	Carrot	800	150	10	
5	Apple	500	300	5	
	Write	Rea		*	

simple PT touch panel operation. For example, the setting parameters for separate models can be edited on the PT, then written to or read from the PLC.

Alarm List/History(*)

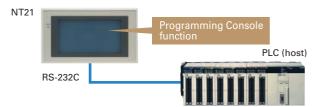

An alarm message can be displayed in response to PLC bit status, and the content and time of the message can be stored as an alarm history.

Alarm History		Men	u
order of occu	rrence	Rese	et
Cur.Time	01/09/17	17:24	: Ø6
Battery Error	01/09/17	14:20	Δ
Sensor Error	01/09/14	16:15	★
Feed Error	01/09/12	10:05	¥
Pump Error	01/09/11	11:48	▼

^{*}C500-BAT08 Battery (sold separately) required.

Programming Console Function

The NT21 is equipped with many of the same functions as the PLC Programming Console.

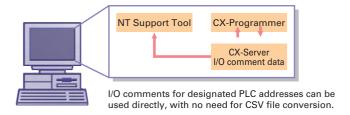

Mathematical Functions

Up to 256 math equations can be stored in the PT processing table to allow automatic PT processing, and the results can be written to the numeral memory table or other destinations. This makes it possible to perform scaling and other mathematical operations automatically in the PT.

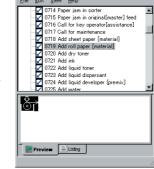

Upgraded NT Support Tool Version (-EV4.7)

Enhanced Editing Functions

•I/O comments in the I/O tables of the CX-Programmer can be used directly.

- •Symbol Manager previews are supported.
 This function makes it possible to preview symbols (parts created from graphics data).
- Parts can be copied by drag & drop operations of image, library, or mark data.
- •The properties of grouped parts can be edited without having to ungroup them.
- Because NT20S and NT31 screen data is compatible

with the NT21, existing software assets can be utilized to greatly reduce the number of design steps.

Note: Some data revisions may be required due to size differences.

•Windows XP supported.

■Comparison with the NT11

Model		NT11	NT11 NT11S		NT20S	
Basic performance	Dimensions	218 x 113 x 38.2	mm (H x W x D)	190 x 110 x 53.	190 x 110 x 53.5 mm (H x W x D)	
	Resolution	160 x 64 dots	s (4.24 inches)	260 x 140 dots (5.2 inches)	256 x 128 dots (4.91 inches)	
	Effective display area	100 x 40 mm		117 x 63 mm	112 x 56 mm	
	Display color	Black & white (w	rith Yellow mode)	Black & white	(with blue mode)	
	Panel cut-out size (W x H)	204.2 x 99.8 mm		178.5 x	178.5 x 100.5 mm	
	Max. number of registered screens	250		3,999	500

	Host Link Speed	Up to 115,200	9,600/19,200	9,600/19,200	9,600/19,200	

^{*}Emergency transfer mode: When power to the NT11 is turned ON with DIP switch pin 3 turned ON, data transfer mode can be entered directly without any other operation.

■NT11 General Specifications

ltem	Specification	
Power supply voltage	24 VDC	
Allowable power supply voltage range	20.4 to 27.6 VDC (24 VDC -15%, +15%)	
Power consumption	10 W max.	
Noise resistance	Conforms to IEC61000-4-4, 2K (power lines)	
Vibration resistance	10 to 57 Hz with 0.075 mm amplitude and 57 to 150 Hz with 9.8 m/s 2 acceleration for 30 min in each of X, Y, and Z directions	
Shock resistance	147 m/s² 3 times in each of X, Y, and Z directions	
Ambient operating temperature	0 to +50°C	
Ambient operating humidity	35 to 85% RH (with no condensation)	
Operating environment	No corrosive gasses.	
Storage temperature	-20 to +70°C (with no freezing)	
Enclosure ratings	Front panel: Equivalent to IP65, NEMA4	
Weight	1.0 kg max.	

■Display/Panel Specifications

Note: In order to improve the performance of displays, liquid crystal devices may be ch

anged without notice.				
ltem	Specification			
Display screen	Dot matrix of STN liquid crystal display panel • Number of dots: 160 x 64 • Effective display area: 100 x 40 mm • Life expectancy: 50,000 hours minimum • View angle (left/right direction): ±20°	Backlight • LED • Life expectancy: 50,000 hours minimum • Automatic turn-off: can be set to turn off in 10 minutes or 1 hour, or to remain on.		
Indicators	POWER indicator (Green LED): Lit while power is being supplied. RUN indicator (Green LED): Lit during operation			
Switch	22 switches Life expectancy: 1 million operations minimum			

■Display Capacity

Note: In order to improve the performance of displays, liquid crystal devices may be changed without notice.

without notice.			
Ite	m	Specification	
Display cha	aracters	Normal characters (8 x 16 dots): Alphanumerics and symbols Marks (8 x 16 dots): User-defined, 64 max.	
Number of characters		Normal-size: 20 horizontally x 4 lines vertically max.	
Enlargeme	ent function	Double width	
	Character string displays	8 positions per screen	
Display elements	Numeral displays	8 positions per screen	
elements	Graph displays	4 positions per screen	
	Numeral settings	8 positions per screen	
Screen attributes	Display history	Order of frequency, 256 screens	
	Password screen	Ensures security: screens for which this attribute is set can only be displayed if the correct password is input.	
	Menu screen	Four items per screen	
Screen typ	es	Normal screen: Displays screen registered as normal.	
Max. number of registered screens		250	
Screen reg	jistration	Transfer screen data created using an IBM PC/AT personal computer to the PT.	
Screen saving method		Saved to flash memory: 32 KB (downloading method)	

■Special Features

Item	Specification	
Printing function	Printing of display history data Printing of daily reports (printing format registered by the users)	
Maintenance functions	Self-test for memory, switches, etc. Status setting confirmation for communications and other conditions. Simple communications confirmation.	

■NT11 Product Configurations

Pro	oduct	Specification	Model

Terms and Conditions Agreement

Read and Understand this Catalog

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments

Warranty and Limitations of Liability

WARRANTY

- (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
- (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT,
 MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT
 ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See http://www.omron.com/global/ or contact your Omron representative for published information.

LIMITATIONS OF LIABILITY

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Application Considerations

SUITABILITY FOR USE

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

PROGRAMMABLE PRODUCTS

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Disclaimers

PERFORMANCE DATA

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

CHANGE IN SPECIFICATIONS

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

ERRORS AND OMISSIONS

Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

Note: Do not use this document to operate the Unit.
